

## **Vision Statement**

**SETON's Primary Care Team Professional Nursing Practice Model will provide:**

- **Enhanced patient partnerships**  
Supports patient participation in their plan of care.
- **Differentiated nursing practice**  
Clearly defined roles and expectations consistent with regulatory standards and required competencies.
- **Enhanced accessibility of the experienced registered nurse**  
Provides care coordination based on clinical expertise and critical thinking.
- **A unique team model**  
Supports nursing staff along the novice to expert continuum.
- **Shared responsibility for meeting patient needs**  
Promotes timely and caring care.
- **Improved work distribution practices**  
Provides ongoing evaluation/revision of assignments in order to better serve the patients and staff.
